SPARE PARTS LIST

1.Install wheels

Firstly insert the sleeves into the wheels, and then push the wheels into the car. After hearing the voice of click,you can check the wheels are installed well or no.Push the button directly if you want to dismantle the wheels from the car.
 When the wheels are installed, press the center button of the wheels, insert the wheels into front axle and fix them; press the center button of the wheels to pull out the wheels from the axle so as to remove the wheels

- 1.Get the sleeves out from the screws&bolts bag and insert both inside and outside of front wheels, and outside of back wheels.
 - 2.Insert one metal gasket into the axle.
 - 3.Put the wheels into the axle.
 - 4.Insert the cotter pin into the hole of axle and make it as cross.
 - 5.Put the wheel cover onto the wheel.
- Please referring to the photos above.

2.Install steering wheel

Due to the reason of movement of steering tube, sometimes there is possibility that the hole on the steering wheel and the hole on the steering tube can not match well. If this happens, please use one hand to hold the hook under the car body in order to fix the steering tube. (Referring to the picture)
 (This means when installing steering wheel, sometimes parents may not aim properly to the hole or not match them well. If so, parents need to use their hand to hold the hook which is under the car body to help to fix).

3.Line connection

According to the picture

Firstly,take out the and insert into the seat•• Take out of the lines and connect terminals accordingly••

4. Install rear view mirror

Align the rearview mirror with the car slot and push until full into place(according to the photo)
 Attention: Installation must be done by adults

Explosive View

This is a Child's Toy and NOT intended for Off-Road Use.

Specifications

Item	Specifications
Battery	12V7AH/12V10AH
Motor	35W
Available Ages	Children from 37-95 month
Maximum Weight	35KGS
Size	129*76*63cm
Speed	3-6km/h
Charging Time	8-12hours
Remote Control Batteries	2PCS of AA Batteries
Charger	Input:220V/110V Output:DC12v1000MA

CHARGING PRECAUTIONS

Battery polarity cannot be reversed, please ensure the red wire is connected to the red battery terminal and the black wire is connected to the black battery terminal

- Press the power switch to OFF position to turn the power off.
- Open the seat, connect the battery plug, red to red.
- Never drain battery completely or to a crawling speed, recharge the battery when a decrease in speed and power is noticed. Warranty will be voided if misuse has occurred.
- Battery charging must be done by adults only. Never allow children to charge the battery. A child could be injured by the electricity involved in charging the battery.
- Please don't connect the wires to a short circuit. The charger and the battery are not a toy. Do not allow children to play with the charger and the battery. Only operate the battery and charger specified according to the manual instructions.
- Please do not open the battery and the charger.
- To maintain safety of vehicle, always secure the battery with the bracket.
- The battery must be handled and operated by adults only; the battery is heavy and contains sulfuric acid (electrolyte). Dropping the battery could result in serious injury
- Before charging the battery check for wear or damage to the battery, charger, the connectors and other parts. If any damage found, the charger should be repaired or replaced immediately. Do not use a damaged charger.

- It is normal for the adaptor to feel warm during charging, but if the charger feels too hot, stop charging immediately and check the battery and adaptor. When charging please turn off the power switch. Please charge the battery for 8-10 hours after first use. Subsequent charges should be 6-8 hours but not exceeding 10 hours. If do not use the car for a long time, please charge at least once a month to keep the battery cells active.

1. Plug the charger into the charging socket.
 2. Plug the other end of the charger into your wall socket.
- Batteries are perishable items that are subject to under and over charging. Please observe the charging time.

TROUBLESHOOTING

Operation Guide

For first time use or after replacing the battery, select not to pair. The car will power on after turning the ignition key.

If you choose to pair the remote control with the car, please follow the instructions below.

- Step 1. Insert two AAA 1.5V batteries into the battery compartment of the remote control. Ensure the battery polarity is matched correctly. If the frequency lights flashes then the battery is correctly installed.
- Step 2: Hold the Car Select button for 2-3 seconds.
- Step 3: Turn on the ignition key to turn on the car.

*Manufactured according to FCC certification testing and ECM credential.

*This remote is to be used by adult only.

Warning-When replacing a replaceable battery, first open the lid and take out the old battery. Put in the new battery, pay attention to the positive and negative poles, cover the lid.
